WORK EXPERIENCE

FINCONS

Fincons Group — Jan 2020-in progress

I'm responsible for managing digital projects for clients such as: Poste, INPS, Ministero dell'Interno, FSI.
I provide technical connections between the customers and the developer teams in order to create a personalized content, based on customer behavior, to offer web-based experiences and tailored customer services.

NEOMOBILE / DIGITALGO

Neomobile / DigitalGo — Jun 2016-Dec 2019

I'm responsible for the front-end development team across all projects, and I'm in charge of choosing the best and most relevant technologies. I interact with the business area and marketing team to translate their needs into software requirements.
We work with Agile methodologies.

COMUNE DI MILANO

Engineering - Ingegneria informatica — Sep 2014-Dec 2015

Responsive website for an optimized mobile browsing experience: city of Milan web-portals (institutional and tourism) design and development.

INAIL

Engineering - Ingegneria informatica — Jun 2015-Dec 2015

Responsive website for an optimized mobile browsing. Any page, each piece of code follows specific Design Pattern principles and WCGAG 2.0 compliant for users with disabilities for making the experience comfortable, easy, intuitive,consistent for everyone and perfectly compatible for screen readers and all tools.

REGIONE LOMBARDIA

Engineering - Ingegneria informatica — Jan 2015-Mar 2015

Worked on designing and building a fully integrated responsive website designed to collect information about tourism in Lombardy.

FAO | SWS

Engineering - Ingegneria informatica — Oct 2013-Dec 2013

Design and implementation features of web-portal FAO through the Extjs framework.

ENEL | EASY

Engineering - Ingegneria informatica — Apr 2012-Sep 2013

Development of web-portal "Easy", a management system for Enel from mock-up to functional use of the product.

SOGEI | EQUITALIA

Opera 21 — Mar 2009-Dic 2011

Web-portal design for the main areas of Equitalia focused on usability and accessibility.

IPZS - ISTITUTO POLIGRAFICO ZECCA DELLO STATO

Opera 21 — Oct 2008-Feb 2009

Design and maintenance of web-portal organidellostato.it.
Analysis, development and testing for the private section of web-portal, to improve the quality and usability of the product.

EDUCATION

COMPUTER SCIENCE & FOREIGN LANGUAGES

Università di Roma "Tor Vergata" Sep 2002-July 2007

Thesis: Digital Communications | Usability on the Web: the problems of the user interface.
I analyzed the notion of usability and how it affects the final product. The project included an in-depth study of Stanca Act (Italian accessibility law) that promoted the right of disabled users to have access to new information technologies.
